Annual Index

Volume 21/1990

Authors

Baum, H.M., Wells, J.K., and Lund, A.K. Motor vehicle crash fatalities in the second year of 65 mph speed limits, 21(1):1-8.

Beauchamp, Y. and Stobbe, T.J. The effects of factors on human performance in the event of an unexpected robot motion, 21(3):83-96.

Brown, D.B., Maghsoodloo, S., and McArdle, M.E. The safety impact of the 65 mph speed limit: A case study using Alabama accident records, 21(4):125-139.

Conroy, C. and Manwaring, J.C. Occupational confined space-related fatalities: Surveillance and prevention, 21(4):157-164

Cook, T.M., Mann, S., and Lovested, G.F. Dynamic comparison of the two-hand stoop and assisted one-hand lift methods, 21(2):53-59.

Cooper, P.J. Elderly drivers' views of self and driving in relation to the evidence of accident data, 21(3):103-113.

DeJoy, D.M. Spontaneous attributional thinking following near-miss and loss-producing traffic accidents, 21(3):115-124.

Ertas, A., Malone, C.W., Jones, J.C., and Leamon, T.B. Design and development of a fall arresting system, 21(3):97-102.

Freivalds, A. Biodynamic simulations of helmet mass and center-of-gravity effects, 21(4):141-148.

Lloyd, C.J. The comparison of accident counts up to the present date, 21(2):75-78.

Lui, K.-J. and McCauley, D.S. A study of the time between previous traffic infractions and fatal automobile crashes, 1984-1986, 21(2):45-51.

Milosevic, S., and Milic, J. Speed perception in road curves, 21(1):19-23.

Mortimer, R.G., Goldsteen, K., Armstrong, R.W., and Macrina, D. Effects of incentives and enforcement on the use of seat belts by drivers, 21(1):25-37.

Redfern, M.S., Marcotte, A., and Chaffin, D.B. A dynamic coefficient of friction measurement device for shoe/floor interface testing, 21(2):61-65.

Saarela, K. L. An intervention program utilizing small groups:A comparative study, 21(4):149-156.

Streff, F. M., Wagenaar, A.C., and Schultz, R. H. Reductions in police-reported injuries associated with Michigan's safety belt law, 21(1):9-18.

Veltri, A. An accident cost impact model: The direct cost component, 21(2):67-73.

Titles

An accident cost impact model: The direct cost component, A. Veltri, 21(2):67-73.

Biodynamic simulations of helmet mass and center-of-gravity effects, A. Freivalds, 21(4):141-148.

The comparison of accident counts up to the present date, C.J. Lloyd, 21(2):75-78.

Design and development of a fall arresting system, A. Ertas, C.W. Malone, J.C. Jones, and T.B. Leamon, 21(3):97-102.

A dynamic coefficient of friction measurement device for shoe/floor interface testing, M.S. Redfern, A. Marcotte, and D.B. Chaffin, 21(2):61-65.

Dynamic comparison of the two-hand stoop and assisted one-hand lift methods, T.M. Cook, S. Mann, and G.E. Lovested, 21(2):53-59.

The effect of factors on human performance in the event of an unexpected robot motion, Y. Beauchamp and T.J. Stobbe, 21(3):83-96.

Effects of incentives and enforcement on the use of seat belts by drivers, R.G. Mortimer, K. Goldsteen, R.W. Armstrong, and D. Macrina, 21(1):25-37.

Elderly drivers' views of self and driving in relation to the evidence of accident data, P.J. Cooper, 21(3):103-113.

An intervention program utilizing small groups: A comparative study, K.L. Saarela, 21(4):149-156.

Motor vehicle crash fatalities in the second year of 65 mph speed limits, H.M. Baum, J.K. Wells, and A.K. Lund, 21(1):1-8.

Occupational confined space-related fatalities:Surveillance and prevention, C. Conroy and J.C. Manwaring, 21(4):157-164.

Reductions in police-reported injuries associated with Michigan's safety belt law, F.M. Streff, A.C. Wagenaar, and R.H. Schultz, 21(1):9-18.

The safety impact of the 65 mph speed limit: A case study using Alabama accident records, D.B. Brown, S. Maghsoodloo, and M.E. McArdle, 21(4):125-139.

Speed perception in road curves, S. Milosevic and J. Milic, 21(1):19-23.

Spontaneous attributional thinking following near-miss and loss-producing traffic accidents, D.M. DeJoy, 21(3):115-124.

A study of the time between previous traffic infractions and fatal automobile crashes, 1984-1986, K.-J. Lui and P.A. Marchbanks, 21(2):45-51.
